

Challenger®

MT 400D SERIES (75-100 PTO)

No tractor tackles the tough jobs with this much ease. Designed with comfort and versatility in mind, the Challenger MT400D Series is ideal for loader work, hay production, planting and tillage, and general on-the-farm use. With its shorter wheelbase and industry leading 4-cylinder AGCO POWER™ engine, the MT400D is sure to be the most maneuverable and versatile workhorse on your farm.

Model	PTO HP	Engine hp	Cylinders	Engine	Transmission

MT 765D	285	350	6/24	AGCO Power 8.4L Tier 4	Caterpillar Powershift 16F/4R

MT 700 E SERIES (350-400 ENGINE HP)

The best ton-for-ton tractor just got bigger and stronger and now delivers even greater horsepower. The AGCO POWER™ 9.8L engine comes armed with up to 400 hp for tackling the most demanding conditions. Plus, the new MT700E Series is equipped with our patented Mobil-trac™ system for superior traction and less compaction. You'll find a wide array of track offerings and gauge settings to adapt to any application, and the simplicity of its design minimizes maintenance costs.

MT 775E	400	431	7	AGCO Power 9.8L	Caterpillar® Powershift 16F/4R

Challenger

MT 800 C SERIES (410-585 ENGINE HP)

The MT800C Series is the only high horsepower track tractor that can be configured to accommodate row-crop work or be equally at home pulling large tillage tools and air seeding applications. The powerful engine, combined with a proven transmission, is only part of this highly productive yet versatile track tractor. The MT800C Series has the flexibility to match virtually any soil type or farming practice

MT 800 E SERIES (450-590 ENGINE HP)

Everyone talks horsepower, but true power can only come from torque. Our largest and most powerful track machine delivers unrivaled torque to quiet the talk. Driving the MT800E is an AGCO POWER™ engine that's engineered solely for the demands of agricultural applications. Nothing comes close when you need to power through the toughest tillage applications without losing speed or torque.
